Off. Secy. to Govt., P.W.D. (General and Drighabon).

Fort St. George, April 16, 1922 (P.O. No. 457 W.).

The Government direct that proposals for telephone installations in Government offices and workshops of Government offices in industrial stations should be taken up to Government from the Collector of the districts concerned. Officers of all departments in the industrial works therefrom send their proposals for telephones to the Collector of their districts, who will forward them to Government with their remarks. The following instructions are laid down for the guidance of Collectors in the matter:—

(1) In a station where there are more than two Government offices or a telephone system or in a station in which it is proposed to put up telephones, it is desirable that there should be some sort of exchange arrangements by which all officers who have telephones or propose to have telephones, should be able to communicate with one another. Such exchanges may be worked by the Revenue Department or by the Police or by any other department that would conveniently do so.

(2) For the above purpose, it will be the duty of Collectors (a) to keep a map of the towns in which there are existing or proposed telephone systems; (b) to get the telephones marked on these maps and (c) to see that all connections are brought on to one central system.

(3) The Collector's proposals should provide for the most convenient arrangement for a Government exchange to be worked in one or other of the above in the station. All proposals should be accompanied by a map showing the existing and proposed connections in the station concerned.

(4) Collectors should, before submitting their proposals to Government, consult the Director, Telegraph Engineering, Southern Circle, Madras, as to the most economical method of putting up the lines and accessories and ascertain from him the annual rental that will have to be paid to the Telegraph Department by the installers.

(5) It will further be the business of Collectors to submit private subscribers to the use of the Government exchanges, on terms to be arranged by them (Subscribers), in consultation with the Director of Telegraph Engineering.

(6) As soon as the total number of connections to a Government Exchange exceeds 20, the Collector should consult the Director, Telegraph Engineering, as to whether it would be remunerative for the Telegraph Department to set up a departmental exchange (i.e., an exchange worked by that department). If so, the Collector should apply for such an exchange to Government, who will refer the Telegraph authorities in the matter.

(7) The instructions in paragraph 1 above relate to the departmental exchanges and connections i.e., those worked by agencies other than the Telegraph Department. Proposals for Government installations from departmental exchanges in stations where such exchanges have been established by the Telegraph Department, should also come to Government through the Collector of the district concerned.

Explanation [2].—When an accident requiring the holding of an enquiry occurs at a station where the duties of two or more Government Inspectors meet, the duty of complying with the rule shall devolve on the Government Inspector within whose jurisdiction lies the railway working the train which is the cause of the accident.

7. Whenever the Government Inspector has made an enquiry under rule 4, or when he discharges work, or assumes it necessary adversely to estimate the report of the joint or deputational enquiry or the working of the railway, he shall submit a report in writing, through the Senior Government Inspector, to the Local Government or Administration controlling the railway and to the Railway Board or to the one of a railway which is directly administered by the State, in the Railway Act, and shall forward a copy of such report to the Agent or Manager of the railway concerned, and, if a registered enquiry is being made, to the Magistrate who is making such enquiry.

This report shall contain any reference to persons implicated. When the Senior Government Inspector recommends the publication of such a report, it shall be in the form adopted by the Inspecting Officers of the Board of Trade, when not recommended for publication, it may be in the form of a simple explanation, as briefly as possible, the special features which the Senior Government Inspector desires to bring to notice.

10. The Government Inspector shall, so far as possible, make any Magistrate making an enquiry under rule 20 or a judicial enquiry, whenever he may be called upon to do so.

11. Nothing in these rules shall be deemed to limit or otherwise affect the exercise of any of the powers conferred on Government Inspectors by section 8 of the Indian Railways Act, 1905.

Duties of the Agent or Manager, and of the Board of the Department concerned.

12. Whenever any accident has occurred in the course of working a railway, the Agent or Manager shall give all reasonable aid to the District Magistrate or the Magistrate appointed or deputed under rule 20, and to the Government Inspector, Medical Officers, the police, and others concerned, to enable them promptly to reach the scene of the accident, and shall assist them collectively in making enquiries and in obtaining evidence as to the cause of the accident.

14. When any enquiry under rule 4 or rule 12 or any judicial enquiry is being made, the Agent or Manager shall arrange for the attendance, as long as may be necessary, at the office or place of enquiry, of all railway servants whose evidence is likely to be required. If the enquiry is to be held by the Government Inspector under rule 4, the Agent or Manager shall cause notice of the date, hour and place at which the enquiry will begin to be given to the officers mentioned in clauses (a) and (b) of rule 8. He shall also arrange for the attendance of the District Officer at the enquiry.

15. Whenever the Agent or Manager receives a copy of the Government Inspector's report under rule 7 he shall at once acknowledge its receipt. If he differs from the views expressed in the report, he shall at the same time submit his remarks thereon, or, if he is not immediately able to do so, he shall do so as soon as possible. If the Agent or Manager desires to present any points or persons, he shall immediately forward a copy of the report, together with a statement of the persons he wishes to prosecute, to the District Magistrate of the district in which the accident occurred, or to such other officer as the Local Government may appoint in this behalf.

16. Whenever the report of the Government Inspector points to the necessity for or suggests a change in any of the rules or in the system of working, the Agent or Manager shall, when submitting the report, submit the action which has been taken, or which is proposed to take, to prevent a recurrence of similar accidents, or shall inform the Government Inspector of his intention to report further to the Government Inspector's proposals.

being properly made by a committee of railway officers (to be called a "joint enquiry") for the thorough investigation of the causes which led to the accident.

Provided that such enquiry may be dispensed with—

- (a) if the enquiry is to be held by the Government Inspector under rule 6;
 - (b) if the accident has not been attended with the loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property; or
 - (c) if there is no conceivable doubt as to the cause of the accident; or
 - (d) if any department of the railway declares that it accepts all responsibility for the accident.
- (f) When such enquiry is dispensed with, it shall be the duty of the head of the department of the railway responsible for the accident to submit such enquiry (to be called a "departmental enquiry") as he may consider adequate, and if his staff or the station of work upon which he is employed, to adopt or suggest such measures as he may consider expedient for preventing a recurrence of similar accidents.

14. (1) Whenever a joint enquiry is to be made, the Agent or Manager shall cause notice of the date and hour at which the enquiry will commence to be given to the following officers, namely:—

- (a) the District Magistrate of the district in which the accident occurred, or such other officer as the Local Government may appoint in this behalf, the Superintendent of Railway Police and the District Superintendent of Police;

XX of 1908.

- (b) the Government Inspector appointed under sub-rule (1) of section 5 of the Indian Railway Act, 1890, for the section of the railway on which the accident occurred, and
 - (c) the officer-in-charge of the railway police, or if there is no railway police, the officer-in-charge of the police station in the jurisdiction of which the accident occurred.
- (2) The date and hour at which the enquiry will commence shall be fixed, so as to give the officers mentioned in sub-rule (1) sufficient time to reach the place where the enquiry is to be held.

15. (1) As soon as any joint or departmental enquiry has been completed, the President of the Committee or the head of the department, as the case may be, shall send to the Agent or Manager a report which in the case of all accidents of the nature described in the explanation to rule 6 must be submitted in the form prescribed by sub-rule (1) of rule 8.

(2) The Agent or Manager shall forward, with his remarks as to the action, if it is intended to take in regard to the staff responsible for the accident, or for the revision of the rules or the system of working, a copy of such report—

- (a) to the official mentioned in clause (b) of sub-rule (1) of rule 14; and
 - (b) if an enquiry or investigation has been made under rule 10 or if a joint or departmental enquiry has been held first, to the Magistrate or other appointed under clause (a) of sub-rule (1) of rule 14; and
 - (c) if any judicial enquiry is being made, to the Magistrate making such enquiry.
- (3) Such copy shall be accompanied in the case referred to in clause (b) of sub-rule (1), by a statement of the persons, staff, whom the Agent or Manager desires to prosecute, and in the case referred to in clause (a) of the same sub-rule, by a copy of the statement taken at the enquiry.

Style of Magistrate.

XX of 1908.

16. Whenever an accident, such as is described in section 12 of the Indian Railway Act, 1890, has occurred in the course of working a railway, the District Magistrate, or any other Magistrate who may be appointed in this behalf by the Local Government, may, either—

- (a) himself make an enquiry into the cause which led to the accident; or
- (b) depute a subordinate Magistrate, who, if possible, should be a Magistrate of the first class, to make such enquiry; or
- (c) direct an investigation into the cause which led to the accident to be made by the police.

17. Whenever it is decided to make an enquiry under clause (a) or clause (b) of rule 16, the District Magistrate or other Magistrate appointed as aforesaid or the Magistrate deputed under clause (c) of rule 16, as the case may be, shall proceed to the scene of the accident and conduct the enquiry there, and shall at once advise the Agent or Manager of the railway and the Government Inspector by telegraph of the date and hour at which the enquiry will commence, so as to enable the railway administration to summon the requisite expert witnesses.

18. A Magistrate making an enquiry under rule 16 may examine any railway servant, and any other person whose presence he may think necessary, and, after taking the evidence and completing the enquiry, shall, if he considers there are sufficient grounds for a judicial enquiry, take the requisite steps for bringing to trial any person whom he may consider to be criminally liable for the accident. Wherever criminal proceedings are involved the Magistrate should call for the opinion of the Government Inspector or other professional person.

19. The result of every enquiry or investigation made under rule 16 shall be communicated by the Magistrate to the Agent or Manager of the railway and to the Government Inspector.

20. If in the course of any judicial enquiry, or an accident occurring in the course of working a railway, the Magistrate desires the services of the Government Inspector or of the Agent or Manager of the railway, or the attendance of any other person, to explain any matter relating to railway engineering, management or working, he will issue a summons to the Agent or Manager for the attendance at Court of an officer competent to explain such matter, stating at the same time the nature of the assistance required. In examining railway servants, the Magistrate will take care not to examine or to charge a member of the employees, specially of accident, on the same day, so as to cause undue stress to the working of the railway. In the case of very serious accidents it will generally be advisable for the Magistrate to obtain a report from both the Government Inspector and the Agent or Manager of the railway in regard to the accident before finally deciding by the judicial enquiry.

21. On the conclusion of any such judicial enquiry the Magistrate shall send a copy of his decision to the Agent or Manager of the railway, and to the Government Inspector, and shall, if time is very much taken, it is necessary to do so, report the result of the enquiry to the Local Government.

Duties of Police Officers.

28. (1) The railway police may make a investigation into the causes which led to any accident occurring in the course of working a railway and shall do so—

(a) whenever any such accident is attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or loss *prima facie* been done to any animal or to machinery; or

(b) whenever the District Magistrate appointed under rule 22 has given a direction under clause (b) of that rule.

Provided that no such investigation shall be made when an enquiry has been commenced or ordered under clause (a) or clause (b) of rule 20.

(2) The railway police shall report, with as little delay as possible, to the nearest District Magistrate or, where there is no District Magistrate, to the railway agent in charge of the station of the railway on which the accident has occurred, every accident which may come to their notice occurring in the course of working a railway attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or which has *prima facie* been done to any animal or to machinery.

29. (1) Whenever an investigation is to be made by the railway police—

(a) in a case in which an accident is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code or with serious injury to property; or

(b) in pursuance of a direction given under clause (b) of rule 28,

the investigation shall be conducted by the officer-in-charge of the railway police, or, if that officer should be unable to conduct the investigation himself, then by an officer to be deputed by him.

(2) The officer deputed under sub-rule (1) shall ordinarily be the senior officer available, and shall, whenever possible, be a gazetted officer, and shall be as near to the place where the accident occurred as possible.

Provided that if the accident has not been attended with loss of life or grievous hurt and if there is no suggestion of any violation of rules on the part of any servant of the railway, the investigation may be carried out by an officer-in-charge of a police station.

30. The officer who is to conduct an investigation in pursuance of rule 27 shall proceed without delay to the scene of the accident and, subject to the sanction of the District Magistrate, shall at once advise the Agent or Manager of the railway and the Traffic Officer of the district by telegraph of the date and hour at which the investigation will commence so that, if possible, the presence of a railway official may be arranged for to watch the proceedings and to aid the officer making the investigation. The absence of a railway official must not, however, be allowed to delay the investigation, which should be made as soon as possible after the accident has taken place.

31. (1) In every case to which rule 27 applies, immediate information shall be given by the railway police to the District Magistrate, who, if so required, shall assist all necessary witnesses, and shall, if necessary, carry the investigation beyond the limits of the railway premises. But the railway police are primarily concerned with the duty of carrying on the investigation within such limits.

(2) Subject to any provisions elsewhere contained in these rules, the further proceedings of the case, on the conclusion of the police investigation, shall rest with the railway police.

32. The results of every police investigation shall be reported at once to the District Magistrate or other officer appointed in this behalf by the Local Government or the Agent or Manager of the railway or other officer appointed by him and to the Government Inspector.

33. Where there are no railway police, the duties imposed by rules 28, 29 and 30, and rule 31 of rule 28, and rule 32 as the railway police, or as the officer-in-charge of the railway police, shall be discharged by the District police or by the District Superintendent of Police, as the case may be.

Abstract The purpose of this study was to determine the effect of a 12-week, low-intensity, supervised walking program on the physical and psychological health of sedentary, middle-aged women. The study was a randomized, controlled trial. The subjects were 40 sedentary, middle-aged women who were randomly assigned to either a supervised walking program or a control group. The walking program consisted of 12 weeks of supervised walking, 3 times per week, for 30 minutes per session. The control group consisted of 20 women who did not participate in the walking program. The subjects were assessed at baseline and at 12 weeks. The walking program had a significant positive effect on the physical and psychological health of the subjects. The walking program significantly improved the subjects' physical health, as measured by the 6-minute walk test, and their psychological health, as measured by the Beck Depression Inventory and the State-Trait Anxiety Inventory. The walking program also had a significant positive effect on the subjects' quality of life, as measured by the SF-36. The walking program was well tolerated and had no adverse effects. The results of this study suggest that a supervised walking program can be an effective intervention for improving the physical and psychological health of sedentary, middle-aged women.

No. 396.—In exercise of the powers conferred by sections 137 (3) and 138 (4) (a) of the Madras Local Boards Act, 1915, the Local Government make the following rule:—

Port St. George, April 18, 1923 (G. O. No. 207, L. & M.).

No. 397.—The Local and Municipal conference held at Bellary on the 24th and 25th October 1922 passed the following resolution:—

"The conference resolves that the houses that are visited in the local boards ought not to be given to Government until the local boards concerned are consulted and until they express the opinion that the houses are not used for the purpose for which they are intended."

The Government are anxious to meet the suggestion in authority but are pleased to direct that in all cases of resumption the local fund concerned shall be consulted, the right of vetoing at a local decision resting entirely with the Government.

Port St. George, April 10, 1923 (G.O. No. 601, P.H.).

No. 154.—In connection with the question of improving the position and prospects of civil sub-assistant surgeons (formerly styled hospital assistants), the Government of India decided in 1894 that all such officers employed in sanctioned appointments should be granted by the authorities paying their salaries free quarters or house rent in lieu (vide G.O. No. 578, Public, dated 7th August 1894). The commission was extended in G.O. No. 51, Public, dated 19th January 1910, to all sub-assistant surgeons including those not holding sanctioned appointments, on the ground that the grant of such a commission would tend to popularise the service. The rate of house-rent allowance granted in lieu of free quarters has varied from time to time according to the needs of particular localities.

2. The pay and prospects of sub-assistant surgeons have been considerably improved since the orders referred to above were passed. In 1894, the pay of these officers was only Rs. 28 to Rs. 55 a month; in 1910 the pay was fixed at Rs. 30 to Rs. 80 a month; the scale of pay has been revised thrice since 1910 and it is at present Rs. 75—5—175 with a selection grade of Rs. 200 per month. Sub-assistant surgeons are also now eligible for promotion as civil assistant surgeons in special cases. In view of the very substantial improvement that has thus taken place, the Government do not consider it necessary to continue any longer the concession of free quarters or house-rent allowance which was first granted with a view to making the service more attractive. They have therefore decided that the concession should be withdrawn with effect from the 1st April 1923. This order will apply to all sub-assistant surgeons borne on the Government cadre, whether they serve directly under the Government or are in the employ of local bodies. All such officers who are provided with official quarters will be required to pay rent at such rates (not exceeding 10 per cent of their salary) as may be fixed by the officers of the Public Works Department or by the local bodies concerned as the case may be.

3. The above orders do not affect the question of the provision of official residences for medical officers where such provision is considered necessary in the interests of the medical institutions to which they are attached. The Government will be prepared to consider proposals for the provision of quarters for medical officers subject to the condition that rent is charged for such quarters.

Port St. George, April 22, 1923 (G.O. No. 619, P.H.).

No. 155.—The following draft of the rules regarding water-supply, house connections and meters in municipalities which the Local Government propose to issue under sub-section (1) of section 304 of the Madras District Municipalities Act, 1919, is published for general information under clause (a) of section 305 of that Act. It is hereby notified that the arrangements made for the conduct of the Oral and Practical Examinations for the several subjects under the different groups will be published in the Port St. George Gazette, from time to time, the subjects, sections, etc., to which the arrangements relate being specified. In all cases for which no arrangements are notified in the Gazette, the necessary information can be obtained from the Chief Superintendent of the Written Examination concerned.

3. Candidates who may not be able to attend the Oral and Practical Examinations should intimate the fact, sufficiently early, to the examiner whose name is entered for against the subjects brought up by them, so that arrangements may not be made for their examination. The particular subjects and grades for which the candidates concerned are unable to attend should be clearly specified in the letter to the examiner.

4. Candidates for carpentry and any other subject, the practical examination in which requires the use of tools, measuring tapes, scales, etc., should bring their own tools, etc., with them.

5. The following arrangements have been made for the conduct of the Oral and Practical Examinations in the subjects mentioned below:—

COTTON CROP OF 1921-22—FIFTH OR FINAL REPORT.

[On an average of the five years ending 1920-21 the area under cotton in the Madras Presidency has represented 16.5 per cent of the total area under sown in India.]

The area sown with cotton in the Madras Presidency in 1921-22 is estimated at 2,180,500 acres against 2,100,000 acres in the February forecast. The increase was entirely in Bannam (20,000 acres) and Sullia (3,000 acres). The present estimate represents an increase of 4.5 per cent over the area of 1,970,500 acres in 1921-22 which was the lowest on record and is slightly higher than the average area of 1,880,700 acres.

3. The yield has been slightly affected and the quality of the cotton obtained is some extent in the south by the rains at the end of March and the beginning of April when the season pickings began. Irrigated lands in Coimbatore and the south as well as the unirrigated areas in the present year, an increase of 21 per cent, and against an average of 40,000 bales, a decrease of 4 per cent.

4. It is based on the assumption that the yield from the "summer" pickings in Coimbatore and the south will be about normal.

5. The estimated area and yield under the several varieties are given below. The distribution is not, however, based on adequate data:—

Variety.	Area in thousands of Acres.	Total in thousands of bales of 400 lbs.
Coimbatore	200	118
Chennai, including Kanningam	200	118
Uppan Saloom, Madras and Bangalore	200	118
Chennai and Bangalore	200	118
Coimbatore	200	118
Others	200	118
Total	2,180	440

6. Details by districts are given in the annexed statement.

Area is 400 cords of acres (i.e., 400² sq. ft. per acre). Yield is 100 cords of bushels of corn to each (i.e., 100 bushels per acre).

STATEMENT OF FISCAL REPORT OF THE SINGAPORE CROP OF 1921-22.

(On an average of the two years ending 1920-21 the area under gingelly in the Malacca Peninsula has represented some 17 per cent of the total area under gingelly in British India.)

The area sown with gingelly in 1921-22 is estimated at 716,528 acres, as against the estimate of 716,528 acres made on the same date last year. The latter estimate showed the actually sown area of 716,528 acres by only 1 per cent. The estimate this year is 6 per cent below last year's estimate. The area in an average year is estimated at 814,000 acres.

5. 716,528 acres have been reported as sown since the date of the previous forecast issued in January. These two sowings were mainly on paddy lands in Malacca, South Arun, and the South where gingelly was raised as a second crop.

6. There was a fairly general decrease as compared with the previous year except in Malacca, Chingapat, South Arun and Siam. The decrease was most marked in Assam and Ceylon.

7. Normal yields are reported except from Malacca, Kurnal, Malaya, Assam, Siam, Siam, Chingapat, Malacca and Siam. The only crop suffered from drought in these districts. The prospects of the late sown crop are very fair. The normal State yields are 12 per cent for the Malacca region 11 per cent in 1920-21 and 10 per cent in 1921-22. On this basis, the yield was set at 12.5 per cent against 12,400 tons last year and an average yield of 12,400 tons.

8. Details by districts are given below:—

(Area in hundreds of acres (i.e., 100 being omitted); yield in hundreds of tons (i.e., 100 being omitted).)

District and group.	Estimated area sown up to the end of.		Area sown in 1921-22 according to the Census and Crop Report.
